

## Let's make DIY Silhouette Portraits!

### SUPPLIES:

solid colored paper  
patterned paper  
scissors  
a picture of a person  
in profile/facing the  
side  
a pen  
glue

1. Find or take a photo of your loved one in profile, aka looking to the side completely.

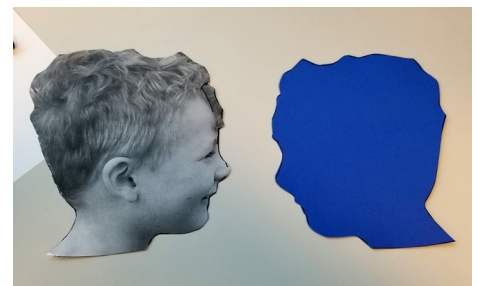

2.

Print off your photo and outline the head. Cut it out on the line.

3.

Flip over the photo and lay it on the paper. Trace around the head. Cut out the

4.

Flip over the cutout so that it is facing the same direction as your original photo and glue onto your patterned paper.
