Art and STEM-focused weekly program  
for the whole family to enjoy

# Butterfly Rings!

SUPPLIES: 3 PIPE CLEANERS, 1  
CUT IN HALF

---

1. Set aside the pipe cleaner you cut in half (we will use it later)! Twist together the remaining two pipe cleaners to form the base of the ring.
2. The ends of the pipe cleaners should now form an X. Roll inward each pipe cleaner end to form the butterfly body!
3. Use the cut in half pipe cleaner to form the antenna! If you want to make your top two wings pointed just pinch them a little bit until they look how you want!
