

# Button Bracelet

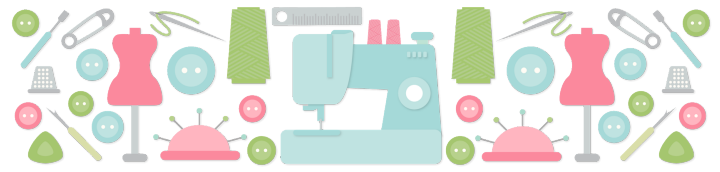

## Instructions

1. Included in the kit there are two pipe cleaners, you should have enough buttons to make two bracelets. Before beginning use the pipe cleaner to get an estimate of how many buttons to use by wrapping it around your child's wrist.
2. Have your child thread the buttons through the pipe cleaner. They should be facing some resistance while doing so but not enough to be difficult.
3. To "tie" your bracelet you can either twist the ends together, or you can take the remaining ends and wrap them around a button on each side. This can eliminate the points of the pipe cleaner from being uncomfortable.
