This Week's Craft:

## Cardboard Dinosaurs!

- [Moon Girl and Devil Dinosaur Vol. 5 Fantastic Three by Brandon Montclare & Alitha Martinez](#) When the Silver Surfer comes to Manhattan with a warning about an ancient cosmic menace on a collision course with Earth, you'd better listen up! But without the First Family of the Marvel Universe around to answer the call, who's going to step up and solve the impossible? Lunella Lafayette, that's who! Without Devil Dinosaur by her side, Lunella must join forces with some new friends who are missing their pals.
- [Here We Go Digging for Dinosaur Bones by Susan Lendroth & Bob Kolar](#) Young paleontologists and dinosaur enthusiasts are invited on a fossil dig, set to the tune of "Here We Go 'Round the Mulberry Bush." Hike the trail, scan the ground, and make a find--then discover how to build a T. Rex from its bones. Includes hand-play motions for sing-alongs and bite-size science sidebars.
- [Dinosaur Amigurumi by Justyna Kacprzak](#) Geared toward practitioners of amigurumi, the Japanese art of crocheting stuffed dolls, this is the only how-to book dedicated to dinosaur patterns. Learn how to crochet fourteen adorable prehistoric creatures to cuddle. The patterns are easy to follow and are suitable for crocheters at all skill levels, from novices to experienced hands.

# WATCH

[The Lost World, 1925](#) Newly restored with 50% more footage than any version generally available for seventy years, here is the model for King Kong, Jurassic Park and Godzilla: a story of living dinosaurs from the Jurassic Age written by the creator of Sherlock Holmes, Sir Arthur Conan Doyle, and starring a cast of stegosaurus, allosaurus, brontosaurus, triceratops, and pterodactyl.

# KEEP LEARNING

[Dinovember: Grab and Go Midwest City Library](#) Dinovember is here. Kits include materials and instructions to create a paper T-Rex or Pterosaur model. You just add the glue. Kits are first come, first serve.
