

## Supplies:

different color paper, glue stick, hot glue gun, scissors, skewer

- Cut 8 strips of paper about 1/2 inch each from different color pieces of paper, and 4 small circles.
- Cover first circle in glue using glue stick and attach strips of paper. Glue another circle on top to secure.
- Do the same for the other ends of your strips of paper!
- Using a pin make a hole in the middle of your bottom and top circles and then push your skewer through both sides! Using glue gun place a dallop of glue over the top of the pointy skewer end (the one on the top) and a little underneath to hold in place.
- Let glue dry and SPIN!
