This Week's Craft: 2020 Found Object Sculpture!

READ

- [Make a Nature Sculpture by Emily Kington](#) Nature-lovers can craft a garden mobile, a bark owl, and other 3D art using natural materials found outside! Step-by-step instructions and full-color photos guide readers along the way.
- [In Mary's Garden by Tina Kugler](#) While the rest of her classmates were making pastries in cooking classes, Mary Nohl was making art-anything she fancied out of anything she could find. Inspiration struck Mary even when she wasn't looking for it. Mary used common objects to make uncommon art. And one day, her garden was a gallery. Mary Nohl passed away in 2001 at the age of eighty-seven. Her famous garden gallery is located in the front yard of her Fox Point, Wisconsin, home to this day.
- [Cloth Lullaby by Amy Novesky, Isabelle Arsenault](#) Louise Bourgeois (1911-2010) was a world-renowned modern artist noted for her sculptures made of wood, steel, stone, and cast rubber. Her most famous spider sculpture, Maman, stands more than 30 feet high. With a beautifully nuanced and poetic story, this book stunningly captures the relationship between mother and daughter and illuminates how memories are woven into us all.

WATCH

[Eva Hesse, Portrait of a Ground Breaking Artist (2016 PG-13)](#) The first feature-length appreciation of the life and work of Eva Hesse, one of America's foremost postwar artists. Her pioneering sculptures, using latex, fiberglass, and plastics, helped establish the post-minimalist movement. Dying of a brain tumor at age 34, she had a mere decade-long career that is dense with complex, intriguing works that defy easy categorization.
