## READ

- [What Kind of Clouds by Nadia Higgins, Sara Infante](#) Kids learn to watch the clouds to prepare for the day ahead. Catchy lyrics introduce the types of clouds and the weather they bring, while colorful illustrations support the concepts and make learning about science fun. This hardcover book comes with Cd and online music access.
- [My Head in the Clouds by Danielle Chaperon, Josée Bisailon](#) Travel the world with an intrepid explorer who's adventurous, brave and just a little bit forgetful. She searches for ancient loot but loses her swimsuit! Goes to beautiful places and misplaces three suitcases! From Canada to Nepal to Egypt and beyond, our narrator circles the globe while abandoning her possessions. She even loses her mother, briefly, in the desert.
- [Rain! By Linda Ashman, Christian Robinson](#) One rainy day in the city, an eager little boy exclaims, "Rain!" Across town a grumpy man grumbles, "Rain." In this endearing picture book, a rainy-day cityscape comes to life in vibrant, cut-paper-style artwork. The boy in his green frog hat splashes in puddles-"Hoppy, hoppy, hoppy!"-while the old man curses the "dang puddles." Can the boy's natural exuberance (and perhaps a cookie) cheer up the grouchy gentleman and turn the day around?

## WATCH

[The Cloud Forest \(2017\)](#) The people of a small community in Veracruz are the guardians of one of the ecosystems facing the most risk in the country: the cloud forest. Hoping to save their sacred and fog-laden land, they work for a simpler and sustainable life. Sixteen families redesign their needs, food, education and relationship with other people and with nature. They create an entirely self-sustaining and independent society. THE CLOUD FOREST weaves this community's singular quest with gorgeous scenes of their endangered surroundings.
