

Bottled Dreams

Wherever you go, take a piece of space and the beach along with you with these mini bottles!

Not pictured: Glitter - because glitter isn't allowed in the library.

Space

Cut the string in half, tie on the two charms and attach them both to the eye screw.

Using caution, pour the glitter in the jar and cover with the cork, shaking the bottle to get glitter on the sides.

Uncork, screw the eye screw onto the cork, and carefully maneuver the charms inside.
