

MACARONI BOX

CAMERA

Supplies: empty macaroni box, paint, paintbrushes, hot glue gun and glue sticks, paper or small pieces of cardboard to turn into your "pictures," bottle tops, jar lids, any odds and ends you want to use to make your camera come to life

- Carefully take apart your macaroni box and lay it out flat. Paint your box any way you would like.
- Using hot glue gun carefully glue your box back together, leaving one end open to store your "pictures".
- Paint inside of jar lid and glue to front of box, glue bottle top to the top of your box, and any other items you would like to help create the look of your camera.
- Paint pictures onto your bits of paper or cardboard to create your pretend photos. Store them inside your camera box!
